

IMPORTANT INFORMATION FOR TANNING BED OWNERS

ELECTRICAL REQUIREMENTS

110 Volt Tanning Beds Must Operate On a Dedicated 110vac 20 Amp Electrical Line (16e, 24p, & 32p)

Or A Dedicated 110vac 15 Amp Electrical Line (16b & 16d).

(Figure #1)

110V 20AMP RATED RECEPTACLE

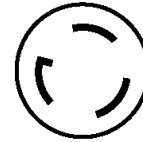

220 Volt Tanning Beds Require a 20 Amp Dedicated Line (26c),
Or A 30 Amp Dedicated Line (28-2f)

The Voltage Must Be Between 220vac - 230vac For All 220 Volt Units.
Per The Manufacturer's Instructions,

(FIGURE #2)

220V 20 AMP RATED RECEPTACLE

(FIGURE #3)

220V 30 AMP RATED RECEPTACLE

TO ACHIEVE MAXIMUM PERFORMANCE THE MANUFACTURER RECOMMENDS OPERATING THESE BEDS BETWEEN 220V TO 230V. IN SOME CASES A BUCK BOOSTER WILL BE NEEDED TO ENSURE THE BED IS OPERATING WITHIN THE REQUIRED VOLTAGE.

Buck boosters alter the voltage coming out of the wall, either raising it (boosting) or lowering it (bucking). By checking the voltage across both "hot" legs of the supply line, determine how much the voltage needs to be raised or lowered to be within the optimal range, if at all. Then determine if a buck booster is needed and which one is best for the application.

26 LAMP BUCK BOOSTERS

<u>BUCKING (LOWERING)</u>		<u>BOOSTING (RAISING)</u>
#006058 -11 .5kva	\$199.99	#006068 +11 .5kva

BOOSTING (RAISING)

#006069 +12 1.0kva

#006071 +16 1.0kva

CARE & MAINTENANCE

Tanning beds require little maintenance, however, to extend the life of your bed, follow these procedures. Clean & disinfect your bed's canopy & bench after each use. Use a non-abrasive disinfectant cleaner that does not contain ammonia or ammonia derivatives. Ammonia will "cloud" the acrylics lessening the bed's ability to tan.

Thorough periodic cleaning is necessary when a dust buildup is observed on the lamps & reflectors consult your owner's manual for the proper procedure.

WARRANTY PERFORMANCE

In the unlikely event your tanning bed requires service, simply call REC. Warehouse to arrange. The service department is open Monday through Friday to assist you both during & after your warranty period. Please refer to your manufacturer's warranty for details. An optional extended warranty is available for all Perfect Sun-Wolff systems, ask your associate for details.
